

Parrot DONGLE

Bluetooth v2.0 + EDR

A multipurpose *Bluetooth* dongle

The Parrot DONGLE lets you transform any PC into a data and music source for all *Bluetooth* devices and equipment.

For listening to music ...

What could be more enjoyable than listening to your own playlist in MP3 or any other format by streaming the music by *Bluetooth* to the Parrot SOUND SYSTEM? Discover all the freedom of listening to wireless music!

For sending photos ...

This latest generation *Bluetooth* DONGLE easily and instantly transfers your best photos to the Parrot PHOTO VIEWER or any other *Bluetooth* device featuring a screen.

And for transferring your files

The Parrot DONGLE incorporates *Bluetooth* v2.0 + EDR, allowing for ultra-fast file transfers without needing any cables or software. Child's play!

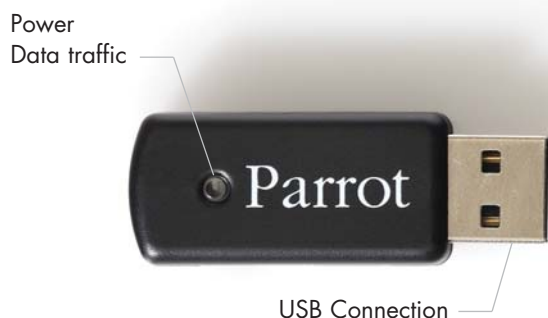

Universal compatibility

The Parrot DONGLE works with all PCs comprising a USB 2.0 interface.

Parrot DONGLE
